TRIP DETAILS

\$ 4,500

\$ 5,400

HOLBOX ISLAND, 140 KM FROM CANCUN

FISHING:

Breakfast is served each day at 5:30 am with boats picking guests up directly in front of the lodge at 6 am.

Sandwiches, snacks and drinks are provided throughout the fishing day out on the boats, which return to the lodge at 2:30 pm.

Fishing options on Holbox are divided into three main points of focus, the primary attraction being large migratory Tarpon in open water, generally traveling in large schools and pushing bait.

A second option in the open water are large schools of Jack Crevalle.

And a third option, often overlooked, is the sight fishing for baby Tarpon (some of which can weigh as much as 20 lbs) and other species in the mangroves of the indigenous nature reserve just to the east of the town.

CONTACT JUSTIN TODAY FOR A
